# ENTERPRISE DATABASE APPLIANCE

Based on MariaDB Enterprise (fork of MySQL)
and IBM Power 10 Server

Solution Package HIGHLIGHTS

Fully Managed, Worry-Free for 3 Years

✅ **One-Time On-Site Deployment**

Set up of "Enterprise Database-in-a-Box" at your premise using IBM Power10 L1022 hardware.

✅ **Zero-Hassle Migration**

Seamless migration of existing MySQL or MariaDB databases to your new secure DBaaS box.

✅ **Ongoing Support & Maintenance**

Full 3-year managed service including OS updates, database patching, performance monitoring & issue resolution.

✅ **Security & Compliance**

Your data stays on-premise – complete control with enterprise-grade security and compliance.

✅ **Optimized for Performance**

Powered by MariaDB Enterprise Server with advanced analytics, high availability, and developer-friendly features.

✅ **Remote DBA & Support**

Proactive support, remote DBA services, and SLA-backed uptime for peace of mind.

Powered by IBM Power10 L1022

Enterprise-Class Hardware

- **IBM Power10 L1022 Server**
  - 1 x 12-Core POWER10 Processor
  - 2 x 64 GB DDR5 RAM
  - 4 x 600 GB High-Speed SSD Storage
  - PowerVM for virtualization
  - OS: Red Hat Enterprise Linux (RHEL) Standard Edition

- **Enterprise-Ready Platform**

  Built for high reliability, workload isolation, and optimal database performance.

- **Ideal for Modern Workloads**

  Suited for mission-critical workloads with high transaction throughput and low latency.
