PROGRAM NOTES

Because of its strategic location as the gateway to the Continent, Dover, England, has enjoyed an honored and vital history dating back to the third century. From the 1588 defeat of the Spanish Armada through two World Wars, the port served as an important military installation.

DOVER PATROL MARCH recalls the valor and tenacity of the allied British and American naval forces stationed at Dover during World War I. The Dover Patrol, as they were called, ensured the safety of some 12 million soldiers as they traveled through the Straits of Dover to battle sites beyond. More than 125,000 ships were ushered unharmed through a maze of German submarines and mines. A monument honoring the Dover Patrol stands at St. Margaret's Bay along the picturesque white cliffs.

Please note: Our band and orchestra music is now being collated by an automatic high-speed system. The enclosed parts are now sorted by page count, rather than score order. We hope this will not present any difficulty for you in distributing the parts. Thank you for your understanding.
