Blizzard's Fury

By Randall D. Standridge, Grade .5

About *Blizzard's Fury*

Blizzard's Fury attempts to illustrate the power and ferocity of a winter storm. A brief moment of calm is heard at the beginning before the full force of Mother Nature is unleashed in a blinding white rage of snow and wind. Trills represent the gusts of wind that buffet the snowflakes through the air, and the driving rhythms and dark harmonies speak to the destructive power of this weather phenomenon. Quick, take cover! The blizzard approaches!

Educational goals of the work:

- 8th Note counting and independence.
- First and Second Ending Repeats, as well as D.S. al Coda (Dies Irae al Coda?)
- Articulations: Staccato, Tenuto, Accents
- This work uses the range of the first 6 notes that are typically taught to developing band students but adds in the concert Db and Concert F#. I have tried to make it repetitive enough that teaching and retention would be easy and effective.

There are additional educational materials, including an optional "B" snare part which is a little bit easier on the product page for the piece. Please visit our website! randallstandridge.com

Rehearsal suggestions

- The Wind sound at the beginning should be created by hissing with the tongue high and the teeth close together. The sound should oscillate so that it sounds like wind on a winter day.
- The ranges of this work have been severely limited to allow younger players to focus on expression, dynamics, style, and tone quality.
- Dynamics should be noticeable and taken to extremes for a hyper-dramatic quality.
- The tempo of this work is vital to its character. Please make every effort to get it up to the written tempo.
- This is a secular winter work; no holiday tunes are used in it.
