Carnival of Venice

Traditional

Arranged by Del Staigers

The musical form theme and variations became popular as a cornet showpiece in the early 1900s. Simple themes or popular folk songs from a variety of cultures were used. The lyrical theme would be played, then a series of variations followed demonstrating the technical skill and virtuosity of the player. Often triple tonguing and/or range extremes were used as showoff devices. The most famous of these cornet theme and variations is the Carnival of Venice.

There were many different arrangements of the Carnival of Venice including versions by Arban, Clarke, Bellstedt and the present edition by Del Staigers.

*To create a clean new edition, dynamics and articulations were made more consistent through the parts.
This is the first time this work has been available with a full conductor score rather than a reduction.*
