## 8 Endearing Elementary Piano Solos

Gayle Kowalchyk  
E. L. Lancaster

*Teddy bears appeal to both the young and the young-at-heart. This collection was written especially for elementary piano students who love teddy bears. *Teddy Bear's Playtime* contains eight endearing solos that depict various playtime activities in a teddy bear's daily life. Ideal for second-year students, these solos use C, G, F and middle C positions with occasional shifts out of position. Three of the solos have optional teacher accompaniments. Young pianists are sure to enjoy spending time with Teddy as he goes on a picnic, has a tea party, celebrates his birthday, goes trick-or-treating and falls fast asleep after a fun-filled day.*
