

## Silent Night, Rockin' Night

Franz Gruber

*Arranged by Ryan Meeboer*

This version of *Silent Night* is arranged in 4/4 (as opposed to the original triple metre), to create the feel of a rock ballad. Make sure the group is in full control of the tempo, guided by the motion created by the tuba.

Throughout the chart, the dynamics gradually increase to the point of a climax, and then is instantly brought back down in measure 25 to wrap up the piece. At measure 13, the horn plays arpeggiated chords, not only to add motion, but also to imitate a guitar player's slower style, so be sure this part is clearly heard, but does not dominate in measures 13 through 21.
